SENEX

Neutralizing 'Zombies' and Respiratory Viruses

WHAT IT IS:

A proprietary blend of vitamins and herbs, including an 'uber' absorbable, maximal strength, anti-zombie cell, anti-viral form of Quercetin

WHY YOU NEED IT:

Important for patients with respiratory, common-cold viruses and COVID

Great for patients with seasonal and chronic allergies

Good for patients with nasal congestion, lung congestion, itchy eyes, sneezing

Important for patients looking to improve athletic performance and recovery

Targets patients wanting anti-aging support to counteract pro-inflammatory, senescent, 'zombie' cells which increase the risk of disease and degeneration

Good for patients struggling with chronic fatigue and poor sleep quality

Great for patients with allergic eye symptoms and eye infections of the conjunctiva and cornea

HOW IT HELPS: Senex is a best-in-class, proprietary blend of vitamins and herbs that...

CLEAR SKIES

CLEAR SKIES

Breathing Just Got Easy

Supports patients with itchy eyes & throat, nasal congestion

Targets patients with post-nasal dripping

Natural alternative to anti-histamine medicines

Quercetin is a natural compound found in onions, red wine, green tea, apples, berries, and broccoli.

As one of the main active ingredients in our allergy formula, Clear Skies, Quercetin supports patients who are looking to reduce the histamine response typically associated with common allergies like itchy eyes, nasal congestion, nasal dripping, and throat irritations.

Unlike anti-histamine medications, Clear Skies does not have the side effects of drowsiness, confusion, and over-dried mucus membranes.

Usual dosage: Take 2 to 3 Clear Skies capsules two to three times daily, as needed, and preferably without...

SINUCEPH #60

SINUMYCIN

Supports Patients with Asthma or Cold/Flu

This product contains a blend of highly sought after herbal extracts, including *Andrographis paniculata*, and together, this unique herbal blend can support patients with cold and flu symptoms; the shorter your cold or flu, the happier you will be.

Sinumycin is also important for patients looking for a cold and flu prevention strategy.

Sinumycin specifically targets patients with sinus congestion, lung congestion, bronchitis, or history of asthma.

Usual Dosage: 1 capsule 1-3 times daily on an empty stomach. May increase to 6-9 capsules daily for additional support.

PETADOLEX

PETADOLEX

Start Spreading the News

☐ Supports patients with migraine headaches

☐ All-natural, safe, and clinically important

Butterbur has been clinically studied in the treatment of patients with migraine headaches. Taken as a daily supplement, specific butterbur extracts, like Petadolex, target patients wanting to reduce the number and frequency of migraine headaches.

Butterbur herbal extracts must be prepared with great precision to remove unwanted elements.

Petadolex by Weber & Weber meets the highest standards for safe and effective allergy treatment with butterbur extracts and is manufactured in German under the strictest of conditions.

Usual Dosage: Take one capsule with each meal as part of a health prevention strategy.
